PROFESSIONAL PROFILE

Lead Java Web Application Developer with over two years of post-qualification experience in enterprise web-based system development. Currently serving as Lead Developer for the Sales Platform System at Botswana Life Insurance Limited.

Experienced in the design, development, implementation, documentation, and maintenance of secure and scalable Java-based applications aligned with technical design documentation and UML specifications. Strong background in SQL database development, RESTful web services, MVC architectural development, and Software Development Lifecycle (SDLC) processes.

Demonstrated ability to lead technical modules, support users, troubleshoot integration issues, and ensure system reliability within regulated business environments. Committed to high standards of service delivery, accountability, and continuous improvement.

PROFESSIONAL EXPERIENCE

SAiS (Software Application & Information Solutions) – Gaborone, Botswana

August 2023 – Present

Lead Java Developer – Sales Platform System(Botswana Life Project)(<https://salesplatform.botswanalife.co.bw/sp/ls/newsp/login.html#/>)

- Lead fullstack development of the Sales Platform System for Botswana Life Insurance Limited.
- Designed and implemented RESTful APIs using Java (Spring Boot) and MVC architecture.
- Developed and optimized Oracle SQL queries supporting transactional and reporting systems.

- Interpreted UML diagrams and technical design documentation to implement system features.
- Participated in full Software Development Lifecycle (analysis, design, testing, deployment, maintenance).
- Conducted unit testing and prepared technical documentation.
- Utilized Git and SVN for version control and collaborative development.
- Provided technical support and knowledge transfer to users and team members

PROJECTS
